Los Carpinteros: “Irreversible” at Sean Kelly

May 11 – June 22

Opening: May 11, 6-9PM

475 Tenth Avenue

As an exhibition, Irreversible addresses themes of community, the passage of time, and the effects of historic events as endured by the anonymous individuals who comprise a society. Los Carpinteros' work conflates conflicting periods, styles and subject matter to articulate the push and pull that major social and political events exert on the citizens who experience them.
