Check out summer's top group exhibitions in NYC

Jason Wyche

"By the Book"

Books, libraries and literature are the themes in this collection of bibliophilic artworks, some of which incorporate actually tomes. Quotations and allusions to the contemplative delights of reading are all part of the mix in a show that speaks volumes about the role of text in contemporary art. Marcel Duchamp, Anselm Kiefer, Kiki Smith and others search the stacks for inspiration.

Javier Tellez, *F For Fable*, 2011
