### THURSDAY, DECEMBER 13

#### **Opening: Anthony McCall at Sean Kelly**

Titled "Split Second," this show features two new "solid-light" installations of the kind that Anthony McCall began producing in 1973. His light installations incorporate elements of sculpture, architecture, cinema, and drawing in projected beams that bring film into the third dimension. Alongside these pieces will be a horizontal work titled *Doubling Back*, which debuted at the 2004 Whitney Biennial, as well as a selection of black and white photographs, many of which have never been shown in America.  
*Sean Kelly Gallery, 475 10th Avenue, 6–8 p.m.*
