ITINERARY

 **Anthony
McCall: Split
Second**

When: Dec. 14–Jan. 26, 2019

Where: Sean Kelly Gallery, New York

What: Traversing sculpture, cinema, and drawing, McCall uses beams of light to create the illusion of volumetric forms that slowly shift and change in space. By shrouding a darkened room in mist, McCall renders complex sculptural forms out of cinema's key components: time and light.
