The ADAA Art Show 2019: A-List Dealers, Blue-Chip Art

Works from contemporary American artist Sam Moyer were found with Sean Kelly Gallery, New York City. The compositions included previously used flat stone fields surrounded by a tailor-fit painted surface. The materials of the stones vary, including marble, caesarstone, slate, travertine and terrazzo concrete. The gallery said, "Sam's work is very unique in that it reinvents the modernism conversation, pushing the language of abstraction and the roles of sculpture and painting." The gallery reported that they sold all eight of Moyer's works at the fair.

Contemporary American artist Sam Moyer includes various types of flat stone into her tailor-fit and painted canvases. Sean Kelly Gallery, New York City.
