## Spotlight: Marina Abramović's 'The Lovers'

Following showcases on Ren Hang and Hiroshi Sugimoto in 2017 and 2018 respectively, this year's Spotlight celebrates pioneering performance artist and filmmaker Marina Abramović and her 1988 series 'The Lovers'. Created in collaboration with then-partner Ulay, the series documents the pair's trek across the Great Wall of China – each starting at different points and culminating with Abramović and Ulay meeting in the middle to end their relationship. As the first time the series is presented in Mainland China, Spotlight is bringing together the full set of 12 photographs, a two-channel video tracing each of their journeys and a video interview with Abramović.
